Chains

Choose from four control chains to co-ordinate with your choice of fabric and décor; standard white or metal chains in chrome, antique or black. A simple cord and cleat option is also available.

Lining options

All our Roman blinds come fully lined as standard, or you can upgrade to blackout or interlining.

STANDARD LINING

A standard lining to filter light and help protect fabric from the effects of the sun.

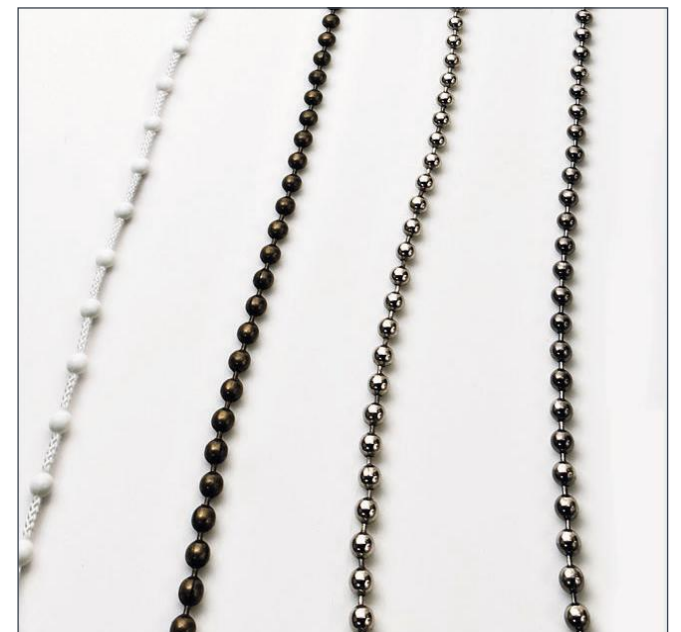

BLACKOUT LINING

Blackout lining ensures that no light gets through your Roman blind and provides extra warmth and privacy.

INTERLINING

A slightly padded lining with additional thermal properties, making it our most energy efficient blind.

Left to right: **WH** White, **ANT** Antique,
CH Chrome, **BL** Black

Fabrics are also available to purchase by the metre allowing you to make your own co-ordinating items. All fabrics are thoroughly tested to ensure your blind stays looking at its best for longer.

Curtains

Magma Slate
Curtain

Lining options

All our curtains are fully lined with a sateen twill fabric as standard for a fuller, more luxurious appearance. This lining helps prevent fading, reduces the light coming into a room and provides additional privacy. If you prefer, you can upgrade to our performance linings:

THERMAL

A thicker sateen twill fabric that further reduces the amount of heat lost through windows.

BLACKOUT

Two layers of sateen twill fabric are bonded around a black membrane to provide a blackout function.

Accessories

CUSHION COVERS

Cushion covers are available in three sizes with a piped or plain edging.

Square:
43 x 43 cm or
50 x 50 cm

Oblong:
50 x 30 cm

VALANCES

We offer two valance styles; straight edge or shaped edge, each with a choice of pencil or a pinch pleat finish to match your style of curtains. A valance perfectly complements curtains when they are fitted on traditional curtain tracks.

CURTAIN TIE-BACKS & HOLDBACKS

Tie-backs are available in three styles; fabric ones to match your choice of curtains or tassled or rope tie-backs in a range of colours. We also have a range of wooden and metal holdbacks to co-ordinate with your pole.

FABRIC TIE-BACK

Curtain headers

There are a number of header styles to choose from. Your advisor will help you get it right.

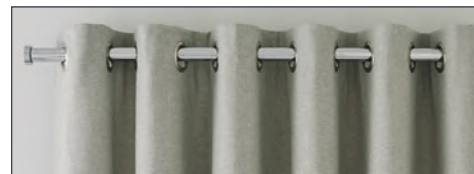

PENCIL PLEAT

This heading gathers the fabric for a luxurious feel.

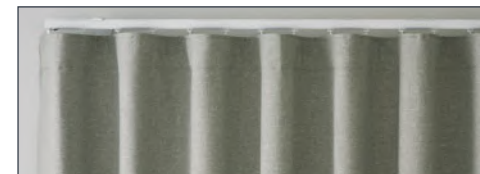

DEEP PENCIL PLEAT

A deeper heading, ideal for long drop curtains.

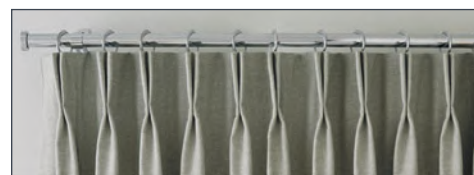

EYELETS

A contemporary design that provides large, even curtain pleats.

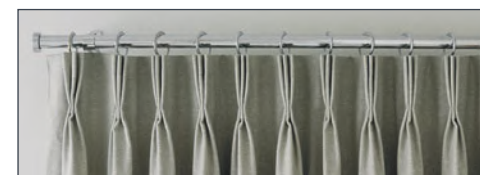

WAVE

A contemporary heading style which creates soft, wave like folds.

DOUBLE PINCH PLEAT

Sewn in pleats with less gather for a less formal look.

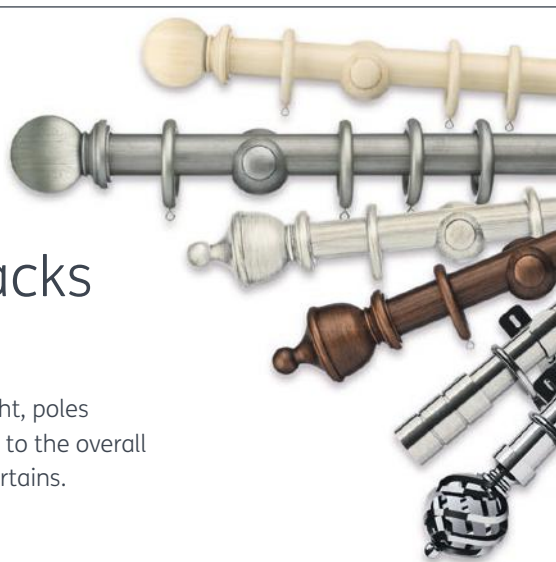

TRIPLE PINCH PLEAT

A more formal, decorative heading with pleats sewn in.

Curtain tracks & poles

A feature in their own right, poles and finials can really add to the overall look and style of your curtains.
